also peaceful & quiet - usually. Fatigue
is still reflected through. Main way is paper
to criticize, as there is some material to put
in the news. Kund to put in in London,
and now collect material material, but to be as
far as possible unaltered.

In Kund about the 2 days later, 7. June
the two is very good. But will the two things
in the last week or more? It was never
of course. Was man in penitence of the? It is
to be the paper is not 7., but look at it
But the explanation found in the paper, in the
last week is not. Was good but is penitence
of the paper is not.
