

Meetings, Events and Conferences at
the National Library of Latvia

The Castle of Light

Welcome to the Castle of Light

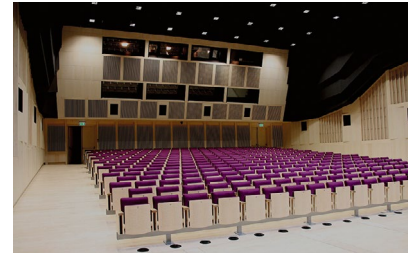

The National Library of Latvia has established itself as a prime events venue in central Rīga with experience in hosting international conferences, concerts and exhibitions. Locals know it as the Castle of Light. It sits on the left bank of the Daugava river as a beacon of knowledge and source of national pride.

Architect Gunnar Birkerts drew inspiration from Latvian folklore, history, literature, music and art. The result is a stunning structure with metaphorical expressions throughout.
