### Kahds Deewa brihnumis irr tas sneegs?

Tahs leetas apdohmaht, ko Deews irr raddijis woi leek notift, prahligam zilwekam ar ween par leelu preeku. Winnam tad no schahm leetahm arri itt kà kahds Deewa wahrdas atskann, kas, ta Wissuwalditaja spehku, gudribu un schehlastibu Puddinadams, prahtu winnam apgaismo un firdi svehti eelihgsmo. Jo, kà Pahwils Neemereem (1, 20.) raksta, "Deewa neredsama buhschana no pafaules raddishanas tohp nomannita un eraudsta pee teem darbeem, arri winna muhschigs spehks un deewiba." — Tadeht jau Ijabs (12, 7. 8.) us tahdu apdohmaschanu skubbinaja, fazidams: "Waiza jelle tohs lohpus, tee tew to mahzihs, un tohs putnus appaksch debbef, tee tew to stahstihs, — jeb runna ar to semmi, ta tew to mahzihs, ir tahs juhras siwis tew to isteiks," — kà ta Kunga rohka tohs raddijuse. Un woi ne ir pats muhsu pestitajs mahzija: "skattaites us teem putneem gaisfà," — "us tahm pukkahn laukà!"

Swehts preeks mums tà patt usnahf, redsoht un apdohmajoh, kà Deews, — tà fakkoh ar Dahnida wahrdeem (147, 16.), "sneegu dohd kà willu," jeb, ar Ijabu (37, 6.) teizoht, "us ro sneegu sakka: nahz' wirs semmes." Ir Sih-raks, tas gudrajs, teefcham! ar svehlu firds lihgsmibu scho Deewa brihnumu buhs apzerrejis, kà no winna pascheem wahrdeem warr nomanniht, kas (43, 17. 18.) mahza: "Deews kaifa to sneegu, itt kà putni nolaistohs, un winna krischana irr itt kà siffeni laischahs. Ta ajs brihnijahs pahr winna fkaistu baltumu; un pahr winna kuplu knigschana ta firds zittada mettahs."

Papreeksch tad nu, ak zilweks, us skatt' ar apdohmigu prahlu scho Deewa darbu paschu, un ismanni, kahds leels brihnumis tas preeksch rawahm azzim irr, kautgan katrà seemà tik beesi tew rahdahs. Raug', kà willas gabbalini, tà seemas laikà sneegs nolaischahs no debbef, brihscham kuplaki, brihscham rettaki, zittu reis zeetaks, zittu reis mithkstaks. Kad tu winnu tà liksi uskrist us kahds melnu drehbi, woi papihru, kà tu tohs fihkus gabbalinus pa weeneem warresi apskattiht, ak kà tad brihnofees, raudsidams, kà katrs gabbalisch tik smukki is-skattahs, woi kà fihka swaigsnite, woi pukkite, woi kà masa putna spalwina, woi kà rittiasch ar haweeem speezineem; zittam irr starrini, zittam aksal staklini; bet wisswairaf, kad tu tohs usluhkozi zaur tahdu skunstigu glahsi, kas masas leetinas israhda azzim leelas, tad tew tuhlin Dahnida wahrdi (139, 14.) schau-fees prahla, ko wiensch Deewu luhgdams fazija: "brihnischki irr tawi darbi, un

to manna dwchfese gan labbi atsifst." — Te jums 8 masas bildites, kas skaidri rahda, ka sneega pukkites, zaur skunstigahm glahfahm usluhkokas, isskattahs:

Neds, ka tas leelajs meisteris skunstigi ir tahdu masu, sihku leetinu, ko tik semmē mett, proht istaisiht. Bet luhsams, schahs mannas 8 sneega pukkites apskattidams, jel ne eedohma, ka sneega wairak sortu ne effoh, ne ka aston. Ne, Kohksneses mahzitaja zeeniga mahte, Deewu mihledama, jau no masahm deenahm irr dewusees us to, Deewa brihuuma darbus skaitiht un mahleht; un winnai arri irr isdeweess, pahri simtu tahdu bilditu no sneega pukkitehm sadabbuht, bet tafchu laikam wehl dauds tuhkslohsch zittas sortes buhs, kas winnai wehl truhkst. Jo mums buhs sinnah, ka zittās semmēs sneegs pa gluschi zittadahm pukkitehm nobirst; wisswairak gan pa swaigsnitehm ar 6 starrineem; tomehr Sprantschu semmē un zittās pasaules mallās, kur gaifs tik pat rahms, ka tur, sneegs ne mas isskattahs ka swaigsnites, bet tik ka addatinas. Bet Calenderu un Ollenderu semmē, ir Wahz' semmes seemeta pussē beesi rohnahs swaigsnites ar 6 ween-fahrfscheem woi dubbulteem starrineem jeb staklineem, pukkites ar 6 lappinahm, ritini ar 6 spezzineem un t. j. pr.; ta patt arri Lapju semmē pee paschas seemeta leddus-juhras, bet tik drusjin zeetaks, un no stipras salnas itt ka faufs. Amerikaneru semmē pee tahs paschas juhras, nonahk zittu brihdi tik ka balts putteklis, zittu brihdi atkal ka sihki leddus gabbalini jeb addatinas, kas drehbehm, ir ah dai edurrah. — Tafchu, kaut kahdā pasaules mallā sneegs nobirst, tur pee semmes drihs faleppahs un isskattahs weenadi. Ar tahdu firds prahstu ween drihkstesim tad nu isteikt, ko tee wissgudrakl un augsti mahziti zilweki pafaulé pahr to jau irr isdohmajuschi, us kahdu wihs gan sneegs augustā gaisā dsemdejotees. Winni mahza tà: "Weenā gabbala, tà patt pa wassaru kà pa seemu, no semmes, no uppehm, esareem un juhrahm flapjums welkahs us augschu, un tur paschā gaisā, zittu reis redsams, zittu reis neredsams, sakrahjahs woi miglōs woi padebbeschōs. Daschkaert atkal laischahs, un prohti, ja gaifs weenadi irr filts, tad leetus lish; bet ja us reis salst, kad jau, tà fakkoh, gat-taws leetus gaisā, tad kruffa mettahs; bet ja gaifs jau weenadi aufsts, tad at-kal gaifa flapjums, pa rahm wissmasakahm, wehl gluschi neredsamahm lahfitihm jau fawilzees un fasallis, nonahk par sneegu semmē.
